

Two public participation elements are recommended:

1. **Parks Usage Survey:** A mail survey will be sent to Langley residents, along with outreach efforts to reach low-income residents and youth. The survey will be designed to gather data on how the City's parks are used, the public's impressions of the parks and desired needs.
2. **Public Open House:** An open house will be held to invite residents to review the results of the parks usage survey and the proposed parks and open space concept and principles. The open house will be designed for education, feedback and open comments.
