Agenda Item: Amendment to Transportation Improvement Program 2011-2016

Attachments: Six Year Transportation Improvement Program Project List

This staff report introduces for City Council review and action an amendment to the adopted 2011 Six Year Transportation Improvement Program (STIP). The amendment is necessary to show the Surface Transportation Program (STP) Region grant the City was awarded for the 2nd Street Reconstruction Phase I, which includes public outreach, design, engineering and permitting.

Background

On the August 16th, 2010 Council Meeting, the Council authorized the Mayor to sign an application for the STP Regional Grant for the Second Street Reconstruction Phase I for the amount of \$216,250. The Sub-Regional Transportation Planning Organization Board approved the funds to be awarded to the City for the first phase of the Second Street Reconstruction Project on September 22, 2010.

The project list for the STIP has to be amended for the City to receive the STP grant funds. There have been three changes to the project list. First, the project was originally listed as including Anthes Avenue between First and Second Street. This has been separated out. Second and thirdly, the 2nd Street section has been split into two Phases. The first phase includes the public outreach, design, engineering and permitting; and shows the funding as secured. The second phase is for the construction of the project.

Recommended Motion

Move to waive a 1st reading and adopt the Amendment to the STIP.
