

**Parks & Open Space Commission  
Listening to the Land Open House  
May 28, 2009**

**Evaluation Summary**

1. *How well was the information presented:*

**18/18 = GOOD                      0 = FAIR                      0 = POOR**

- a. Thoughtful, visual, well boiled down
- b. Nice job!
- c. Very well done!

2. *Were you able to have your questions about parks and open space answered?*

**18/18 = YES                      0 = FAIR                      0 = POOR**

- a. Thorough talk w. presenters
- b. Discovered new parks entirely!

3. *Were there enough opportunities to provide feedback?*

**18/18 = YES                      0 = NO**

- a. Sorta
- b. Wall comment sheets great

4. *Did the open house meet your expectations?*

**17/18 = YES,                      1 = no expectations**

- a. Actually, it exceeded them. I am very pleasantly surprised to see that every issue I raised was addressed.
- b. Exceeded!
- c. But had expected verbal presentation --- pleasantly surprised

Additional written comments:

- "I don't pick up a sense of commitment ("soul") in the presentation. Is open space optional? If not, then how about a bold vision board (table)?"
- "I do want to be sure the POS commission reviews the existing comp plan element and integrates it with the current work."
- "The next steps facing the POSC could be featured on a large board, showing council meeting dates and public hearing, etc."
- Having people at each "station" a good idea ---- much info gained."
- I enjoy the self guided and interactive nature. Fruitful conversations with the commissioners!"
- Good info --- liked self-touring. Some people might prefer more formal presentation (shy people?) but it was highly informative. Thank you.
- Like extending the building moratorium.
- I'd like my comment (feedback wall) to be taken seriously

- I would read and comprehend more thoroughly if I had the opportunity to view slides online.
- Nice display boards and photos!
- Very good presentation
- Thanx
- Connecting parks and open spaces is key! – town trails – bikes & pedestrians. What a unique and great situation we are in!
- The Parks & Open Space Committee had done a great job cataloging current open space. Good luck in creating connecting trails and adding more open space.
- Layout suggestion – go in a loop/circle instead of having to go back to beginning.
- Excellent presentation & works. Thanks!
- Great job! Love the corridors and core areas. Great to have the 25% open space to achieve. Love to have beach access/trail down Saratoga Creek ravine and also at the end of Edgecliff – or/and access end of Edgecliff to Sandy Point.
