| WA State Positive*(confirmed) | | | 40,656 including 1,438 deaths |

Last Updated: July 13, 2020 at 4:15 pm

**Island County counts on this page may differ from WA State Department of Health publicized counts due to direct access to the reporting system at the county level.*

NOTE: Following individual case investigations, case counts may shift due to reassignment to other counties.

The majority of the confirmed COVID-19 positive cases in Island County have recovered or are recovering at home. A small number have been hospitalized. Of those hospitalized, some have recovered, some are still in the hospital, and a few have resulted in fatalities. Not everyone who is infected with COVID-19 have symptoms or are tested. Most individuals who are infected have few or mild symptoms.
