From Julie Glover to All Panelists: 05:32 PM

Julie Glover here, as a participant

From Mark Wahl to Everyone: 05:36 PM

I will be commenting on smart meters also.

From Lynne Lesson to Everyone: 05:43 PM

this seems like critical information we are missing

From Me to Everyone: 05:47 PM

dbaldwin@langleywa.org

From Carryn Vande Griend - PSE to All Panelists: 05:47 PM

I apologize for the technical difficulties! Certainly, I will send you our presentation. Feel free to send me any further questions you may have at carryn.vandegriend@pse.com

From Me to Everyone: 05:49 PM

Any questions for Teri on PSA Smart Meters?

From Mark Wahl to Everyone: 05:49 PM

AMI Advanced metering Infrastructure

From Lynne Lesson to Everyone: 05:50 PM

what information can you provide about safety?

From Janet Pingree to Everyone: 05:50 PM

There has been a lot of resistance to Smart Meters across the country. Many get sick. Is there a way to opt out of Smart Meters, as there is in many locations?

From Lynne Lesson to Everyone: 05:51 PM

what are the qualifications to opt out? why do we need to qualify to opt out?

From Autumn Preble to All Panelists: 05:51 PM

I did not intend to raise my hand. I am here to hear Mark W's presentation and the discussion that follows. thanks

From Mark Wahl to Everyone: 05:52 PM

Will analog meters be allowed for opt-out?

From Me to Everyone: 05:55 PM

I will ask your questions after council is done with their discussion.

From Lynne Lesson to Everyone: 05:57 PM

i'm good with waiting until after Mark's

From Me to Everyone: 06:02 PM

Chat will open up for questions after Mark's presentation.

From Christy Korrow Council 1 to All Panelists: 06:04 PM

18.22.190 Wireless communications facilities.

From Me to Everyone: 06:24 PM

Post from Christy Korrow: 18.22.190 Wireless communications facilities.

<https://www.codepublishing.com/WA/Langley/#!/Langley18/Langley1822.html#18.22.190>

From Diahn Stetner to All Panelists: 06:25 PM

I already have a hole with a 5G box in it in my front yard. what can I do to protect myself from radiation microwave

From Rhonda Salerno to All Panelists: 06:25 PM

I think we are very fortunate to have Mark offer his time and service to our city and I sure would like to see the city make use of his expertise, networking and knowledge. This is a huge public safety and liability issue.

From Laurie Keith to All Panelists: 06:27 PM

Laurie Keith here in support of Langley leading the way on creating empowering Wireless radiation code for both Smart Meters and 5G antennas.

From Diahn Stetner to All Panelists: 06:28 PM

Whidbey telephone has put 5G on Whidbey, why would they lie?

From Julie Glover to Everyone: 06:30 PM

If EMR is so safe, why is it considered uninsurable wrt damage to local folks?

From Kimmer Morris to All Panelists: 06:31 PM

Mark, can you tell us what meter readings you have gotten from any of the existing Langley towers, and what those levels compare to known health risks?

From Diahn Stetner to All Panelists: 06:32 PM

I think Mr. Wahl has researched this subject for years, it disturbs me that his information is discredited by someone who has not kept up with this technology

From Lynne Lesson to Everyone: 06:38 PM

Absolutely

From Carryn Vande Griend - PSE to All Panelists: 06:40 PM

PSE strongly disagrees with many of Mr. Wahl's claims and representations of our Meter Upgrade Project. We look forward to scheduling a formal presentation at the Council's convenience to address the concerns raised this evening. In the meantime, I will follow up with Council with our project overview, meter safety and opt-out information. Thank you.

From Me to Everyone: 06:41 PM

Council2@langleywa.org

From Lynne Lesson to Everyone: 06:43 PM

Thank you Mark!!

From Teri Battstone to All Panelists: 06:43 PM

Thank you council.

From Carryn Vande Griend - PSE to All Panelists: 06:43 PM

Thanks, Council!

From Me to Everyone: 07:30 PM

TIP-Transportation Improvement Plan is now being discussed.

From Me to Everyone: 07:50 PM

Thank You and Good Night
