

**Proposal to the Langley City Council from the Langley Arts Commission
for approval of a location for public art on Second Street**

The Langley Arts Commissions respectfully requests consideration for a public art display on city-owned property. The proposed location is in front of the Langley Post Office in an existing 13 x 9 foot plant bed, immediately on the left as you enter the Post Office parking lot from Second Street. This prime location has a high- degree of visibility in support of a public art.

The Arts Commission believes this proposal falls within the Commission Ordinance and its goal for developing new and exciting public art sites within our community, and creating opportunities for our local artists.

The Arts Commission shall be responsible to acquire all necessary funds to cover expenses associated with this project, including the call to artists, site preparation, art installation, and maintenance.

Upon approval, the Arts Commission will move forward with a call to artists to submit concept designs for review by the LAC, with final approval by the City Council.
